Economic Development News

October 4, 2018

Featured Business: **EAW Tech**

EAW Tech is an IT Consulting and Solutions company with a focus on small- and medium-sized companies in the private sector in Historic Downtown Manassas. It is founded on the idea that reliable IT support requires a comprehensive approach to understanding a client's technology vision and how it best fits within their work processes. EAW Tech accomplishes this by applying a technical solution that fits within that vision through a consistent IT dialogue.

Owner Eric Wolpert chose to build his company in Manassas to serve and support the small- and medium- sized companies that are being overlooked by other IT firms who focus their marketing and sales efforts on larger accounts closer to DC.

Featured Partner: **Manassas Economic Development**

In an effort to continue to support and promote the local business community the Department of Economic Development has launched its own Facebook page (City of Manassas Department of Economic Development). The initiative will build on the Department's ongoing efforts (like this E-Newsletter!) to better serve you through open and transparent communication.

Additionally, the Department

"Manassas has given me a network of entrepreneurs who return their investment back towards other companies within the community and I intend for EAW Tech to do its part to serve Manassas as it grows with community outreach and job creation."
