GNS Group Delivers PPE and E-Commerce Solutions in Manassas

The [GNS Group](#), an IT company specializing in application development and e-commerce, opened a small headquarters and fulfillment center on Phoenix Drive in Manassas this July.

Initially focused on IT development, the GNS Group carved out a niche in e-commerce – specifically optimizing Amazon digital storefronts. That expertise allowed their international team to successfully launch a robust [Amazon store for PPE products](#), selling and distributing masks (dental masks to N95 equivalent KF94 masks) and sanitizer from their South Korean partner brand G Hope™.

“We opened our first location in Manassas to support our growing Amazon market shares. We’ve found this area provides great access to our market with much easier access to logistic needs and we’re very excited to be in the City,” said company CEO TK Cho. GNS Group employs a local team of four staff along with a

number of international partners as well.

Most recently, GNS has been busy developing user applications supporting over-the-counter COVID-19 rapid test kits, a product waiting emergency use authorization by the FDA. The GNS designed application guides users on how to use the test kit as well as produces an AI-backed test result diagnosis.

We look forward to GNS Group's contributions in the fight against COVID-19 and welcome them to the City of Manassas!
