PARTNER SPOTLIGHT

Virginia Values Veterans Program (V3)

In 2012, Virginia became the first state to create an official program dedicated to improving the employment of veterans by training employers on national best practices to recruit, hire, train and retain veterans.

The Virginia Values Veterans Program (V3) is a free training and certification program for employers to help them implement nationally recognized best practices in recruiting, hiring and retaining highly-skilled and dependable veterans.

Hundreds of thousands of American service members will transition from active duty into the civilian workforce in the coming years. America's veterans, including our serving members of the National Guard and Reserve, as well as military spouses, are highly-trained and well-educated professionals for competitive organizations like yours.

The program is designed to serve employers who want to hire veterans but aren't sure how, as well as small businesses that want to improve their understanding of the talents veterans can bring to their organization.

The next free training will be held June 9, 2021 and employers will learn why hiring veterans will be the best business decision their organization can make, as well as gain access to valuable resources to connect directly with this population. This event is tailored to all employers' needs and challenges. As an added benefit this seminar serves as the Training Requirement for V3-Certification. All for free.
